TEAM DEVELOPMENT PROGRAM “ESCAPE THE BARN”

How does it work? We lock you inside the barn and the only way out is effective teamwork. Distribute the tasks, find hidden objects, follow the hints, share information, collaborate with your team mates, solve practical challenges and deserve your freedom. You have only 60 minutes, before the oxygen runs out!

Escape the barn is an exciting survival game, which can be used as an assessment center (recruiting and competence development), team development or pure fun.

The game simulates real processes (flood of information, stress, small teams) and needs of modern organisation (identification of priorities, time management, personal responsibility, decision making under pressure etc).

We run the “Escape the barn” program on three difficulty levels.

95% of teams does NOT escape the barn in time. Will you make it?

We recommend the program for any business or private event, but it works best as 1) an introduction to a workshop on organizational relations, 2) introduction to a competence training or 3) for recruiting.

Program effects: a completely new and unforgettable experience, brain training, training of communication and cooperation

Duration: 60 min + -15 minutes of preparation

Basic price: € 490 + VAT to 20 persons / € 10 + VAT per additional person

More options:

- De-brief / facilitated discussion (up to 1,5h)
- A psychological analysis/profile of individuals and teams
- Training of specific competencies
- Food, drink and entertainment in the Walnut grove

The Walnut Grove is a unique venue in Ljubljana, Slovenia, We provide top-notch team transformation programs, as well as "live" cuisine and extraordinary entertainment for all types of special events. We have capacities for up to 300 people.

More on the "Escape the room" concept

The inspiration for the program is the increasingly popular concept of "live escape the room games", which had been a huge success in major cities such as London, New York and Tokyo and are spreading globally. Our game is unique in several ways. It takes place in a large barn rather than a small city flat. We can take up to 25 people at once. The game was created specifically for the needs of modern organizations on the basis of more than 10 years of experience in team development, team building programs, business simulations and professional workshops for personnel development.
